BURNSRED

We are a digital product and innovation company

We provide enterprise SaaS solutions for the world's largest brands, with a reputation for solving problems that others couldn't. Headquartered in Melbourne and opposite the iconic MCG, We are a cutting edge technology business consisting of 3 teams. Behavioural economics, UX design and technology delivery. We all work in a flexible environment with a totally flat structure and no time sheets. BurnsRED scores 12 on the Joel test for programming.

ABOUT THE ROLE

FULL STACK DEVELOPER

We are looking for a Full Stack Developer to help create innovative digital experiences that solve problems in ways that others couldn't. You will work in a collaborative team across diverse industries using cutting edge tools and technology.

Some days you will be building new tools from scratch using cutting edge tech. Other days you will be adding features to existing tools or researching how a new technology might change the way we solve future problems.

Our flavour of software development ensures that you have a high quality functional specification and a full set of UX designs before you are required to write a single line of code.

You will help define what is possible during the design phase.

You will work with a world class team of software professionals who are always learning new skills.

As a senior developer you will help the junior team members build their skills and confidence.

You will engage with clients and colleagues contributing problem-solving and innovation.

You will experiment with new technology and provide feedback on its usefulness to our customers.
