

We are a digital product and innovation company

We provide enterprise SaaS solutions for the world's largest brands, with a reputation for solving problems that others couldn't. Headquartered in Melbourne and opposite the iconic MCG, We are a cutting edge technology business consisting of 3 teams. Behavioural economics, UX design and technology delivery. We all work in a flexible environment with a totally flat structure and no time sheets. BurnsRED scores 12 on the Joel test for programming.

ABOUT THE ROLE

UX DESIGNER

BurnsRED is looking for a UX Designer to help create experiences that thousands of users can love. You will work in a collaborative team across diverse industries and varying formats. We launch digital products and services with the world's largest brands.

Our flavour of UX Design ties in user research, conversations, empathy, and insights to synthesize complex information together into crafted business software that demonstrates the user-friendliness and aesthetics of best-in-class consumer apps.

ABOUT YOU

Experience in digital design and advanced understanding of UX/UI principles

Flexible and collaborative attitude

A strong curiosity and excitement for new web technologies and trends

An eye for detail and a curiosity to make things better

Some understanding of HTML5 and CSS

An understanding of and experience with mobile app interfaces

Experience working as part of a design team

Can work to deadline and juggle competing priorities

Willingness to take ownership of projects and work autonomously

While we work flexibly both in time and location, you will need to be available to work on site in our Melbourne office with the team on a regular basis as arranged within the team

You can demonstrate your process through wireframes, site maps, customer-journeys and flows.

You have experience in Sketch/Figma

Level 4, 126 Wellington Parade
East Melbourne VIC 3002

Solving tomorrow's problems for the world's biggest brands

You'll help set experiential direction and provide strategic guidance informed from users, through the duration of projects.

You'll work with cross-functional teams to execute against the principles that create great, human centred products.

As a hands-on designer with a meticulous eye for detail you'll help oversee UI with creativity and logic, foreseeing the states and interactions affected.

You'll engage with clients and forge a relationship as a go-to for creativity, problem-solving and ideation.

You are happy to own a project and become a subject matter expert on behalf of the client during project delivery.

WHAT YOU WILL GET

A competitive salary package with various incentives and rewards.

Flexible working hours (and no timesheets)

Work with a renowned team of talented professionals

We provide freedom and time to develop your skills with external training
